EDUCATION

Rutgers New Brunswick, Expected | May 2027

New-Brunswick, NJ

Bachelor of Science in Computer Science

Relevant Coursework: Data Structures, Design and Analysis of Computer Algorithms, Computer Architecture, Software Methodology, Principles of Information and Data Management, Introduction to Artificial Intelligence, Internet Technology, Principles of Programming Languages, Discrete Structures I, Discrete Structures II, Software Engineering.

TECHNICAL SKILLS AND SOFTWARE PROFICIENCIES

Languages: Java, C#, Python, SQL, HTML, CSS

Frameworks: ASP.NET Core, Entity Framework Core, Pandas, NumPy

Tools: Git, GitHub, IntelliJ IDEA, Eclipse, Visual Studio Code

Testing and debugging: Unit Testing • Debugging • Troubleshooting • Performance Profiling

Core Competencies: Backend Development • RESTful APIs • ASP.NET Core • Java Development • SQL • Object-Oriented Design • Entity Framework Core • JavaFX • Software Testing • Git

PROJECT EXPERIENCE

Portfolio Tracker API: ASP.NET Core | C# | SQL

Developed a RESTful API for investment portfolio management using clean architecture.

- Implemented authentication and authorization with secure user management.
- Built CRUD operations following Clean Architecture principles.
- Designed a scalable backend for efficient portfolio management.

RU Cafe Ordering System: Java | JavaFX | SQLite | JDBC | Maven | JUnit

Developed a desktop café management system that supports customizable menu items, order processing, persistent order history, and automated sales tax calculations.

- Implemented customizable menus, order management, and dynamic pricing.
- Added file export functionality and responsive UI layouts.
- Built the interface using JavaFX, FXML, and CSS.

Student Management System: C# | .NET | OOP

Developed a console-based application to efficiently manage student records, GPA calculations, and academic data.

- Built a console application for student records, GPA calculation, and CRUD operations.
- Applied OOP, inheritance, interfaces, collections, and exception handling.
- Organized data efficiently using Lists and Dictionaries.

WORK EXPERIENCE

Application Developer Intern

Aug 2025 – Present

Piscataway, NJ

Rutgers Institutional Planning and Operations (IPO)

- Enhanced application observability for **Fire Inspection** and **Building Notification** systems by implementing structured logging across key workflows, errors, and application events.
- Improved debugging and troubleshooting by increasing visibility into application behavior, failures, and system activity through detailed log messages.
- Contributed to the **UI modernization of the Rutgers Maintenance Request website**, improving interface consistency, usability, and overall user experience.

IT Service Desk Intern

Jan 2025 – Jul 2025

Piscataway, NJ

Rutgers Institutional Planning and Operations (IPO)

- Diagnosed and resolved **hardware, software, account-access, and network-related issues** for university faculty and staff.
- Investigated technical incidents and performed systematic troubleshooting to identify root causes and restore system functionality.
- Managed support requests via a **ticketing system**, documenting troubleshooting steps, resolutions, and escalations to ensure accurate issue tracking.

ACTIVITIES

Scholarship Recipient, IIE & QSAP • Strategy sub-team Lead, **Rutgers Solar Car Team** • Member, Rutgers Women in Computer Science (WiCS) • HackRU Participant • **Rutgers Health Hackathon** Participant
